

Mini Bullet Camera

QUICK INSTALL GUIDE

EL-120

Dear Customers!

By selecting this product, you have decided to use a professional device that guarantees highest quality and reliability. We would like to thank you very much for your confidence and kindly ask you to read the following instructions carefully before installation and operation in order to take full advantage of all quality features regarding this product.

The lighting flash with an arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of non-insulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

INFORMATION

This equipment has been tested and found to comply with limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at its own expense.

WARNING

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

CAUTION

- To prevent electric shock and risk of the fire hazards
- Do NOT use power source other than that specified.
- Do NOT expose this appliance to rain or moisture.

This installation should be made by a qualified service person and should conform to all local codes.

Precautions

- Please read the manual carefully before the installation in order to set up the camera correctly and to obtain the best picture quality.
- Please keep the manual in good condition for your future reference and service application.
- Installation and services should be only carried out by an authorized personnel according to local safety regulations.
- If any liquid or solid matter gets into the housing, immediately disconnect the camera from power supply and have it checked by your authorized dealer before reusing.
- Avoid installing the camera at extremely hot or cold places.
- If you are not a certified person, never try to dismantle the camera. To avoid electric shock, never remove the screws or covers. There are no parts inside that need maintenance by the user. All maintenance should be carried out by qualified personnel.
- Avoid installing the camera at a place of high humidity.
- Avoid installing the camera at the place exposed to gas or oil.
- Keep the top glass of the lens always clean in order to obtain the best picture quality all the time. Be careful not to be stained by fingerprint.
- Don't face the camera directly toward sunlight or sunlight reflecting area. CCD may go defective at this condition.
- Please give a special attention to keep the unit from dangerous drop or external shock during the process of transportation or handling.
- Never try to touch the camera in wet hand. It may cause an electric shock.
- Do not expose the camera to radioactivity. It causes a serious damage on the CCD.

Limitation of liability

Installation

Troubleshooting

If there are problems in operating, please refer to the checklist below. If the problem persists, please contact the agent where this product is purchased.

| Problems | Troubleshooting |
|---|---|
| Nothing appears on the screen. | * Please check that the power cord and line connection between the camera and monitor are fixed properly. * Please check that you have properly connected VIDEO cable to the camera VIDEO output jack. |
| The image on the screen is dim. | * Is lens stained with dirt? Clean your lens with soft, clean cloth. * Set the monitor to proper condition. * If the camera is exposed to too strong light, change the camera position. |
| The image on the screen is dark. | * Adjust the contrast feature of the monitor. * If you have an intermediate device, set the 75Ω / Hi-Z properly (Please check the impedance) |
| The camera is not working properly, and the surface of the camera is hot. | * Please check that you have properly connected the camera to an appropriate power source. |
| The screen flickers continually. | * Please check that direction of camera turns toward the Sun. |

Dimension (mm)

Specification

| Description | Mini Bullet Camera |
|-----------------------|--|
| Image sensor | 1/3" Super HAD CCD |
| Effective Pixels | NTSC : 768(H)X494(V) PAL : 752(H)X582(V) |
| Min. Illumination | 0.2Lux at F2.0 |
| H.Resolution | 500 TV Lines |
| Synchronizing system | Internal |
| Scanning system | NTSC 525 Lines, PAL 625 Lines 2:1 Interlaced |
| Video output | 1.0Vp-p Composite, 75 Ohms |
| S/N ratio | More than 50 dB (AGC Off) |
| Gain Control | -1dB~31.5dB Auto |
| Gamma correction | $\gamma = 0.45$ |
| Shutter Speed | NTSC : 1/60~1/100,000 sec |
| Gamma correction | PAL : 1/50~1/100,000 sec |
| White Balance | Automatic(AWB) |
| Smear Effect | 0.005% |
| MTBF | 80,000 hours |
| Lens Standard | 3.6mm (92°) |
| Power source | 12VDC (9V~20V) |
| Operating current | 90mA w/regulated 12VDC in |
| Operating Temperature | 14°F~122°F (-10°C~ + 50°C) |
| Output Terminal | 4 Foot DIY cable with BNC-Female for Video, DC Jack-Male for Power (Standard) |
| Measurement (mm) | Weather proof : 21(D)x73(L) |
| Weight (Approx.g) | 180 |
